Cat Story

Four cats, one basket and a lot of yarn.

Cats

About the game

A cosy evening with four very different cats: the ginger troublemaker, the elegant white lady, the shy black kitten and their friend in a bow. Yarn balls, food bowls and a wicker basket complete the household.

Cat coins land with cash values, and in free spins the basket wild gathers them up while a yarn meter fills towards the next level of the bonus.

Cat Story is made for cosy evenings: warm colours and playful animation, with the bonus buy available where the operator allows it.

Lines & collect. Line wins in the base game; in free spins a wild collector scoops up every coin on screen and climbs a multiplier ladder.
