Fruit Fortune 777

Old-school fruit. New-school jackpots.

Classic fruits

About the game

The classic fruit machine, polished to a shine. Bells, grapes, plums, oranges, lemons and cherries spin next to the lucky red seven, with a star wild that keeps the lines alive.

Land enough coins and Hold & Win begins: every coin stays where it lands, each new coin resets the respins, and the jackpot plates wait for the boldest boards. Fill the whole screen for the Grand.

No free spins to wait for, just the respin feature and its jackpots, with a direct Hold & Win buy where the operator allows it.

Hold & Win. Coins lock in place, every new coin resets the respins, and a full board pays the top jackpot.
