About the game

Reelcraft is the slot your players design themselves. They pick a world, from a candy kingdom and Olympus to neon Tokyo, a pirate cove or dragon peaks, choose its style and mood, name it, and start spinning a slot nobody else has.

Underneath every creation sits proven math. Players choose between two mechanics: Cascade, with pay-anywhere tumbles and multiplier orbs, and Classic, where the wild collects coin values on a compact board.

Creations can be shared and remixed, so a single title keeps producing new reasons to come back, while the operator controls the RTP level and every bet mode as usual.

Classic collect. A compact classic reel set where the wild collects coin values, built for steady sessions.

Cascade. Pay-anywhere wins that tumble away and let new symbols fall in, with multiplier orbs that add up in free spins.
